Thursday, 2 April 2026

Dear Freshcare Participating Business,

Muirs is a 100% Australian, family-owned Rural Retailer. Our Companies provide the following products and services to fresh produce businesses:

- Crop Protection Chemicals
- Crop Nutrition Products, including Fertiliser, Trace Elements and Bio-Stimulants
- Seed
- Post-Harvest Cleaners & Sanitisers, Waxes and Chemicals
- Hydroponics inputs
- On Farm Packaging
- Consultancy

This letter serves to confirm that the products and services Muirs supply meet with all the appropriate Australian Standards regarding Food Safety.

Muirs is an Agsafe accredited Company, operating from Agsafe accredited premises across Australia, supported by Agsafe qualified staff. At every stage of our business, we endeavour to perform according to quality processes and guidelines.

Our agronomists are tertiary trained and qualified. They draw on the resources of our suppliers and various technical institutions, to address any crop related issues that may occur with our customers.

Muirs, where possible, purchase goods from quality assured companies and those with quality processes in place. The best available seed is sourced, and all chemicals sold are registered by the APVMA. All fertiliser is certified as to the contents being that described on the bag / label.

Please feel free to reach out to our team at any time or peruse our website for additional information via https://muirs.co/ .

Thank you.

Regards,

Muirs Management Team
